I am DV.SURSH BABU chairman of the company HELLO MOBILES, Located in Andhra Pradesh we need a web page for our mobile shop which can be useful for our online Services, I need a web page with nice designs and animations which should attract the customers.

REQUIREMENTS:

2. It should contain a home page with all offers scrolling to left one by one
2. It should contain sub pages of contact us, about us, login, online delivery, accessories, mobiles, tv's
3. Keep a map type animation to get our location of the showroom.
4. Title bar should not disappear while scrolling down.
5. Backup with database to store customers login information
6. Make a big end bar to get info and t.c of the showroom.

Remaining requirements and changes will be discussed further after front end completes. Students will be funded and rewarded for making this website. Wishing you all the best for your first project.
